

United Nations  
Office for South-South Cooperation

# Fellowship

## ABOUT:

The Youth4South Fellowship offers funded fellowship and scholarship opportunities to qualified young professionals and scholars to undertake research projects, pursue postgraduate degrees, and participate in short-term exchange and training courses in areas including international affairs, development studies, public policy, public administration and management, international cooperation and South-South and triangular cooperation at selected prestigious universities and research and technical institutes.

The **three categories** supported under the Youth4South Fellowship are:

Supported category	Length of enrollment	Length of scholarship	Placement
Masters degree programme	1-2 academic years	1-2 academic years	Select host universities
Research scholars	3-6 months	3-6 months	Select host universities, research and knowledge centers
Exchange and training courses	7-15 days	7-15 days	On demand (with select knowledge and research institutes, universities)

## OUTCOME:

The Youth4South Fellows will have an opportunity to present a research and dissertation project to produce a systematic South-South and triangular cooperation solution and action plan for addressing a development challenge from their home country and institutional context in line with the Sustainable Development Goals.

## PLANNED ACTIVITIES:

The Youth4South Fellowship (2020-2021) will be piloted jointly with the Government of China by providing scholarships to a number of established young professionals and scholars from developing countries. The placement will take place at five top tier universities in China:
